DETAILED ACTION

Allowable Subject Matter

Claims 3-7, 9, 11-15 and 17 are allowed.

Regarding claims 3-7, 9, 11-15 and 17, there is no prior art of record that teaches the common electrode includes an outer common electrode pattern and inner electrode pattern, and wherein the pixel electrode includes a first pixel electrode pattern formed between the outer and inner common electrode patterns, a second pixel electrode pattern having a discal shape and located inside the inner common electrode pattern, and a pixel connecting line. The prior art of record (see final rejection) teaches pixel and common electrodes of a spiral shape thus the limitations of claims 3-7, 9, 11-15 and 17 clearly distinguish over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
